

CONTENTS

Problems of Information Technology (2026), vol. 17, no. 2

1.	Elchin Ismayilov Compositional Recognition of Azerbaijani Speech Signals Using Phonetic Acoustic Components	3
2.	Kamran Asgarov. Mathematical feature representations of mouse dynamics for continuous user authentication	13
3.	Qadir Talibov. Multi-UAV Coordinated path planning using a multi-agent soft actor-critic algorithm	28
4.	Jalal Mehdiyev, Vusal Shahbazov. AzFakeNews: A Benchmark Dataset for Fake News Detection in the Azerbaijani Language	39
5.	Vagif Aliyev. Adaptive Terrain-Referenced Vision System for Autonomous Multicopter Navigation	45
6.	Nail Mammadov Elzar, Azar Huseyn Sadraddin, Elchin Abasov Arif, Ali Rahimli Jeyhun, Elvin Seyfullayev Sakit. Predicting Urban Traffic Flow with Classical and Machine Learning Models	56
